EMBRACING CURIOSITY

Integrating Literacy and Scientific Inquiries into K-6 Classrooms

June 24 & 25, 2019
Gamboa Discovery School
Gamboa, Panama

Join us for this two-day workshop for teachers looking to enhance their inquiry-based tools for integrating science and literacy. This hands-on professional development experience will model inquiry project structures and demonstrate how student-led scientific explorations can be scaffolded through the use of high-quality, diverse literature.

Work sessions will include:

- Fostering classroom habits that encourage inquiry
- Curriculum frameworks for student-led scientific inquiry
- Hands-on inquiry experiences for teachers to take directly into the classroom
- Direct interaction with scientists connecting teachers to current research and guidance in inquiry for the classroom
- Project-based assessments for tracking student progress
- Children's literature and resources to both spark and deepen students' inquiries

Details

June 24 – 25; 9am – 3pm
Gamboa Discovery School
Facilitators: Dorea Kleker, Ph.D. & Sean Vezino
\$200* /participant

(* includes classroom resources and lunch each day)
